Property Description

The most special villa in the complex, we present you a jewel in Benahavis for you to fully enjoy...Located in Real de la Quinta, bordering a UNESCO Biosphere Reserve and only 15 minutes from Marbella, this new project has stunning views of the Mediterranean, Gibraltar and the coast of Africa. World Class Design – Each of the 18 individually designed villas will be unlike anything that has come before. Additional offerings of custom-designed furniture from UVen and world-leading brands, along with an impressive selection of artwork, make these one-of-a-kind homes something to be truly proud of. Indoor-outdoor living: This concept is central to the design of each villa, with the lounge and terrace seamlessly merging into one expansive living space. In key parts of the villas, the windows disappear into the walls, framing the undisturbed, panoramic views of the natural surroundings. Sustainable luxury: Building for today without endangering tomorrow is a core value of the project, which is in the process of being BREEAM certified. The design improvements brought about by this assessment result in sustainable homes that improve the well-being of the people who live in them, help protect natural resources, and make real estate investment more attractive.
