Property Description

Our architecture is more than what you see. We believe in a design that transcends the aesthetic and we create homes designed to make you happy. Spaces designed from sensitivity and conceived to adapt to you, your city and the planet. We build homes in which design is much more than design: it is [PureDesign](#)

We propose a residential model inspired by luxurious tropical residences, where water and vegetation are the main protagonists and where outdoor spaces are part of the daily life of each home.

Its privileged location, in Cala de Mijas, and its common areas, with swimming pool, solarium and gym, are surrounded by gardens so that you can enjoy the privileged climate of the Costa del Sol.

The design reinterprets the sophisticated style of Brazilian resorts and updates it in an avant-garde residential area, with pure lines and wide overhangs. The large terraces emerge from its characteristic green façade and form an architectural framework that fulfills a double function: to give the complex its identity and to ensure optimum sunlight throughout the year.
