### Property Description

---

We present a new residential project in Marbella, in the Nueva Andalucía area, north of Puerto Banús.

It is a new development of 113 multi-family homes “with large common areas, a spectacular design, avant-garde architecture, and excellent qualities”. Ground-floor apartments, duplexes, intermediate and penthouses with 2 to 4 bedrooms, all with terrace.

The project is structured in a residential complex of low-density blocks to provide them with greater spaciousness, tranquility and privacy, aspiring to achieve the highest energy rating through the implementation of systems such as aerothermal energy, for the production of hot water and heating, low-consumption lighting and planting of species with low water consumption.

Additionally, the development is equipped with large communal areas with a fitness room, club lounge, indoor pool, spa and gardens, among other facilities. The area where the project is located, Nueva Andalucía, is situated in the heart of the Costa del Sol, specifically in the municipality of Marbella, north of Puerto Banús and 10 kilometres from the city centre.
