Property Description

We present a new residential development located in Mijas Costa, where nature, design and wellbeing come together to create a unique living environment. Positioned between the sea and the mountains, the project offers open views towards the Mediterranean in a peaceful and elevated setting.

The development consists of apartments with two and three bedrooms, all designed with modern open-plan interiors and large windows that maximise natural light and create a seamless connection between indoor and outdoor living. The properties feature spacious terraces, with ground floor units offering private gardens and penthouses benefiting from solariums.

The communal areas have been carefully designed to offer a complete lifestyle experience, including swimming pools, gym, coworking spaces, sports areas and extensive landscaped gardens, all within a secure gated community.

The homes are built to a high standard with quality materials and finishes throughout, including fully fitted kitchens, aerothermal systems, ducted air conditioning and high-performance carpentry.

The location provides excellent connections to Málaga, Marbella and the airport, while still offering a sense of tranquillity surrounded by natural beauty.

This new development is an ideal choice for those looking to enjoy a relaxed lifestyle where every day feels like a holiday.
